OVERVIEW

Medium and heavy plate punch marking machine is a one-piece three-dimensional machinery, the operation more convenient, more flexible use, is set punching and marking with one of the intelligent equipment.

FEATURES

- Permanent markings are automatically printed on the plate production line.
- Marking speed, marking clear, transport .Smooth line, simple operation.
- Windows platform control software, can automatically print serial number, with networking, communication functions.

SPECIFICATIONS

Model	Medium and heavy plate punch marking machine
Laser output power	10W / 20W
Beam quality	≤ 1.5
Focus mode	semi-automatic
Laser wavelength	1046nm
Pulse range	20KHz-100KHz
Marking range	110x110mm 150x150mm 175x175mm 200x200mm
Marking line speed	≤ 12500mm / s
Marking depth	≤ 1.5mm (depending on the material hardness)
The minimum line width	0.015mm
The minimum character	0.15mm
Machine power	550W
Power supply	220Vac 50Hz

Applications

Widely used in medium and thick steel plate punching and other functions
