Web : [www.gem-lasers.com](http://www.gem-lasers.com)

**SPECIFICATIONS**

Print Width	700mm	Print Color	C, M, Y, K, LC, LM, W
Number of nozzles	80	Print accuracy	2880dpi
Sprinkler Model	Seiko (SPT508GS-12PL)	Print Height	Conventional equipment higher 10cm, customizable height
Print Weight	Lossless Accuracy Weight 600KG	Print Speed	500 ~ 1100 square feet / hour

**OVERVIEW**

Steel plate high speed printing machine is a foot line, wood flooring printing equipment, can also be regarded as an industrial pipeline equipment, high efficiency, good printing effect

**FEATURES**

- Automatic lifting platform, easy to operate, reduce the alignment error
- Inkjet method optional spray or spray line, line spray speed, fog spray delicate and realistic and eliminate drawing bar
- Three-stage wiping and peristaltic pump device to prevent nozzle clogging and prolong nozzle life
- Automatic cleaning and nozzle moisturizing device to ensure ink fluency and prevent nozzle clogging
- You can set any location to print the origin, easy to learn
- Mute linear guide, stable performance and high accuracy, through the EU CE certification, the quality of more secure
- Adsorption platform, vacuum adsorption intelligent device can be easily blown to pick up the material
- The height and width of the device can be customized according to the actual situation

## Applications

Applicable scope: foot line, wood flooring printing equipment, can also print tiles, glass, acrylic, integrated board, wood, metal, leather, carpets, handicrafts, PVC, ABS, etc.

## Laser Marked Samples
